FEATURES

BCW WHEELCHAIR

The Wheelchairs of Kansas **BCW Wheelchair** is the original bariatric manual wheelchair, custom built to the client's specifications. Constructed with a durable, heavy-duty steel frame, four point telescoping seat, signature double x-brace support and offers a wide variety of front riggings, armrests, frame colors and breathable upholstery colors. It is available in 600 lb., 750 lb. and 1000 lb. weight capacities. The BCW wheelchair custom design will accommodate even the most challenging bariatric client.
