

BCW RECLINER (600 LB. CAP.)

made in the USA

BCW RECLINER

The Wheelchairs of Kansas **BCW Recliner** is designed to give the bariatric client a variety of options for positioning and comfort. This manual wheelchair is constructed with a durable, heavy-duty steel frame, signature double x-brace and powered 45° reclining back. It is equipped with a 12-volt battery and user-friendly recharging system. The BCW Recliner comes standard with composite mag wheels, full recline, removable armrests and elevating legrests. A variety of breathable upholstery and frame colors are available to accommodate your client's preference.

- Variety of seat widths and depths available for customization
- Power recline
- Anti-Tip device w/ wheels for added safety
- 600 lb. weight capacity
